- Starts and stops automatically.
- Easy installation for maintenance-free operation.

Technical specifications

EAN	7332857501311
Article number	WDP-01

Increase the capacity of your dehumidifier with Wood's WDP-01 condensate pump. Perfect when the dehumidifier is located in hard-to-reach areas, such as in a house foundation. The pump automatically drains condensation water through a hose directly to the drain – up to 10 metres horizontally or vertically. You don't have to empty the water tank manually and get an efficient, long-term and maintenance-free solution.
