Wood’s hygrometer WHG-1

Hygrometer for measuring humidity and temperature

- **Measures humidity (20–95%) and temperature (0°C–+50°C).**
- **Max/Min function for highest and lowest values.**
- **Detect moisture problems before they cause damage.**
- **Large, clear display – also shows time and calendar.**
- **Alarm and snooze function.**
- **Battery (CR2025) included.**

Wood's WHG-1 is a handy hygrometer that measures both humidity and temperature, giving you full control over your indoor climate. The clear display also shows the time, calendar and has an alarm function. With the Max/Min mode, you can easily see the highest and lowest measured values, which helps you detect moisture problems in time and prevent mould, rust and rot.

Wood’s article number: WHG-1
