

Wood's Pleated Carbon Filter 900- serie

Carbon filter for Wood's 900 series air purifiers

- Two filters – fits Wood's 900 series air purifiers (GRAN 900).
- 100 g of activated carbon per filter (200 g total).
- Pleated design – minimal pressure drop and effective air purification.
- Removes gases, chemical pollutants and unpleasant odours.
- Placed in front of the Active ION HEPA filter.
- Should be replaced approximately every 3 months or more often if capacity is lost.

Technical specifications

EAN	7332857000388
Article number	WCA901P

Wood's Pleated Carbon Filter for the 900 series consists of two filters, each containing 100 g of activated carbon. Thanks to their pleated design, they cause minimal pressure drop while effectively removing gases, chemical pollutants and unpleasant odours. The filters are placed in front of the Active ION HEPA filter in air purifiers such as the GRAN 900 and should be replaced regularly, usually every three months. A perfect complement for a healthier indoor climate.
