

Wood's Carbon Granulate Filter 300-serie

Carbon filter for Wood's 300 series air purifiers

- Suitable for Wood's 300 series (AL 310, AL 310FC, ELFI 300).
- Contains 600 g of high-quality activated carbon.
- Removes gases, odours and chemical pollutants.
- Complements the Active ION HEPA filter for maximum air purification.
- Smart design – minimal impact on air flow.

Wood's Carbon Granulate Filter for the 300 series contains 600 g of activated carbon and effectively removes gases, chemical contaminants and unpleasant odours. Thanks to its smart design, airflow is minimally affected, while the filter complements the Active ION HEPA filter that removes particles. It is placed at the top of the air purifier (AL 310, AL 310FC, ELFI 300) and should be replaced regularly, usually every three months.

Wood's article number: WCA301G
