

Wood's Pleated Carbon Filter 300- serie

Carbon filter for Wood's 300 series air
purifiers

- Suitable for Wood's 300 series (AL 310, AL 310FC, ELFI 300).
- Contains 130 g of activated carbon.
- Pleated design – minimal pressure drop and effective air purification.
- Removes gases, odours and chemical pollutants.
- Complements the Active ION HEPA filter for maximum effect.
- Should be replaced approximately every 3 months or when capacity deteriorates.

Wood's Pleated Carbon Filter for the 300 series contains 130 g of activated carbon and has a smart pleated design that provides minimal pressure drop while effectively removing gases, chemical contaminants and unpleasant odours. The filter is used in conjunction with the Active ION HEPA filter for maximum air purification. It is an add-on product that is placed in the 300 series air purifiers (AL 310, AL 310FC, ELFI 300) and should be replaced regularly, usually every three months.
