- **Suitable for Wood’s Airmaster WOZ 400, 500 (formerly BLC 500)**
- **Swedish-made tube in high-quality materials**
- **Made of stainless steel (SS2333), quartz glass, and aluminum**
- **Supplied with silicone hoses for connection**
- **Ensures effective ozone conversion**
- **Spare part – should be replaced regularly**

Ozone tube Wood’s Airmaster WOZ 400, 500 (formerly BLC 500) is an original spare part that ensures effective and stable ozone production. The tube is Swedish-made in stainless steel (SS2333), quartz glass, and aluminum for long durability and high performance. Comes complete with silicone hoses for easy connection. Since the ozone tube is a wear part, regular replacement is recommended. When replacing, the ozone generator should always be cleaned.
