2000 (formerly BLC 2000)

- Suitable for Wood's Airmaster WOZ 2000 (formerly BLC 2000)
- Swedish-made electrode tube in high-quality materials
- Made of stainless steel (SS2333), quartz glass, and aluminum
- Supplied with silicone hoses for connection
- Ensures effective ozone conversion
- Wear part – should be replaced regularly

Ozone tube Wood's Airmaster WOZ 2000 (formerly BLC 2000) is an original spare part that ensures effective and stable ozone production. The tube is Swedish-made in stainless steel (SS2333), quartz glass, and aluminum for long durability and high performance. Comes complete with silicone hoses for easy connection. Since the ozone tube is a wear part, regular replacement is recommended. When replacing, the ozone generator should always be cleaned.
