Wood's AC Cortina 12K AirSwitch™ is a test-winning portable AC with patented AirSwitch™ technology. When the outdoor temperature is cooler than indoors, the compressor switches off and the fan whispers quietly as it draws in cool air from outside – extremely quiet and energy efficient. At the same time, the air is purified through a built-in HEPA filter that removes pollen, dust and bacteria. Effectively cools up to 35 m², energy class A and 6-year warranty upon registration.
