

Wood's SW39FW

Dehumidifier for construction sites, properties and basements

- Removes up to 19 litres of moisture per day.
- High airflow of 340 m³/hour.
- Efficient operation down to +2.
- Can be combined with a fan heater to reduce drying times (Operates up to +40°C).
- Simple hose connection for continuous drainage.
- Developed and manufactured in Sweden.

The Wood's SW39FW is a robust and reliable dehumidifier developed for professional moisture control and drying in demanding environments. The combination of high dehumidification capacity and an air flow rate of 340 m³/h makes it suitable for everything from building sites and water damage to warehouses, properties and industrial environments. Effective dehumidification between +2°C and +40°C means the SW39FW can be used in a variety of conditions all year round.

Wood's article number: SW-39FW

EAN: 7332857502806

Technical specifications

Maximum work area	140 m ²
Type of system	Compressor
Power Consumption (30°C & 80% RH)	510 watts
Filter	SMF-filter
Air flow	230-340m ³
Fan Speeds	2
Water Tank Size	11,4 litres (auto off when full)
Hose coupling	1/2" (not included)
Sound level	54-57 dB (lowest to highest)
Refrigerant	R290/110g
Net Weight	22,5 kg
Dimensions mm (H x W x D)	527x345x495
Main material	Metal
Power Supply	220-240V, 50Hz
IP class	IPX1
EAN	7332857502806
Article number	SW-39FW
