

Wood's Roof Window Sealing Kit (Thermal)

Thermal sealing kit for portable AC units.
For homes and offices.

- Two 2 m pieces – designed for roof windows
- One piece equipped with a zip and four runners – also fits AC units with two hoses
- Made of thermal fabric that keeps warm air out and cool air in
- Easy installation between window and frame
- Fits all portable AC models (including AC Cortina AirSwitch)
- Also stops dust, dirt and insects

Wood's Roof Window Sealing Kit is the perfect accessory for portable air conditioners in rooms with roof windows. The kit consists of two 2 m parts, one of which has a zip with four runners and can be used for both one and two exhaust hoses. Made of thermal fabric that effectively keeps hot air out and cool air in. Fits all portable AC models and is easy to install.
