

## Stackable professional dehumidifier for large and open spaces!

WCD Pro series

### Improved capacity

The WCD4HG Pro is able to maximize the dehumidification capacity by combining the existing i-eco control with a Hot Gas defrost feature. This dehumidifier is able to run with an evaporation temperature lower than 0° C for a specified time and still prevent freezing (which otherwise can occur at low ambient temperatures on "standard" machines).

- Environmentally friendly refrigerant
- Removes excess moisture and bad odors
- Gives you a significant heat pump effect (more energy out than in)
- Effective air purification.
- i-EcoDefrost, intelligent defrosting system
- Recyclable chassis
- Professional dehumidification
- Easy to maintain.
- Reliable
- The working temperature range is from -20 °C up to +35 °C
- Energy saving
- Long service life

### Specification WCD4HG Pro

Max. working area	230m <sup>2</sup>
Recommended area	10 - 162 m <sup>2</sup>
Airflow Step 1	129 m <sup>3</sup> /h
Airflow Step 2	296 m <sup>3</sup> /h
Capacity at 20°C & 70% RH	25 litres/day
Capacity at 30°C & 80% RH	41 litres/day
Power at 20°C & 70% RH	500 W
Power at 30°C & 80% RH	690 W
Working interval	+2 to +35°C
Tank volume	11,4 litres
Fan speeds	2
Dimensions LxWxH	508x464x595
Weight	28 kg
Sound level	37 - 58 dB
Cooling media, freon free	R290
IP Rating	IPX1
EAN code	7332857501045

Wood's dehumidifier has been awarded Best in Test in independent tests many times! Thanks to its operational reliability and superior capacity, more than 600 000 households only in the Nordics have kept mold and moisture damage away. This dehumidifier has been product-developed further and is part of the new Pro range. Developed and manufactured in Sweden with new intelligent defrosting system, high reliability, superior life span, energy efficient, reliable and easy to maintain. WCD Pro- series provides faster defrosting and better energy efficiency and is adapted to aggressive environments. Made of recyclable steel. Stackable with a handle that can be folded down.

### WCD Pro- series - robust professional dehumidifier for buildings, large open spaces and storage rooms

WCD Pro- series is a powerful professional dehumidifier for warehouses and industries. The working temperature range has been broadened using a new intelligent defrost system, i-EcoDefrost, from +2 °C up to +35 °C. i-EcoDefrost, developed and manufactured in Sweden, provides faster and better defrost and function, the machine becomes even more efficient, dehumidifies faster and more energy efficiently. The design of WCD Pro- series is well proven and has high reliability. This makes it reliable and easy to maintain. All exposed parts are adapted for use in aggressive environments. WCD Pro- series is very energy efficient because it is based on the same principle as a heat pump. In the process of this professional dehumidifier, no unnecessary heat is lost as the same air circulates all the time. Therefore, the method is easy to control and very energy-efficient.
